

Bhishant

Jaipur, Rajasthan

+91-8949469651 bhishants@gmail.com Github LinkedIn Portfolio (AI Projects & Data Case Studies)

Profile Summary

Focused on Data Analytics, Data Science, and AI, with hands-on experience in building real-world, data-driven applications and intelligent systems. Proficient in Python, data analysis, and machine learning, with practical experience in data preprocessing, exploratory data analysis (EDA), and deploying AI-powered solutions, including LLM-based applications and RAG pipelines.

Education

Bachelor of Technology in Computer Science (AI/ML) JECRC University CGPA: 7.86	Aug 2022 – Present Jaipur, Rajasthan
Senior Secondary KR Convent	Mar 2022 Sangaria, Rajasthan

Projects

Employee Turnover Prediction — (Salifort Motors)	Apr 2026
- Analysed 15,000-employee HR dataset to uncover why people quit found workload and tenure matter far more than salary. - Built a Random Forest classifier (96.2% accuracy, 93.8% AUC) that correctly flags 9 out of 10 employees at risk of leaving. - Identified 3 distinct at-risk employee profiles through EDA and delivered actionable retention recommendations to management.	
Content Moderation Analysis (TikTok Dataset)	Apr 2026
- Conducted exploratory data analysis on a dataset of 19,000+ videos to identify patterns distinguishing claim vs. opinion content - Found claim videos receive ~100x higher median views, indicating higher engagement risk - Identified key features (view count, author status, verification) for content classification - Built visualizations using Python (Pandas, Matplotlib, Seaborn) to analyze engagement trends and user behavior	
AI Multi-Agent Application	May 2025
- Developed a data-driven AI application using Node.js and LLM APIs, enabling intelligent multi-agent collaboration. - Designed a RAG-based pipeline to retrieve, preprocess, and inject relevant data into model responses, improving accuracy and contextual relevance. - Implemented error analysis, fallback strategies, and testing workflows to ensure reliable AI outputs under varied data conditions.	

Experience

Website Manager (Yoga Community) – Managed website operations for **Yoga Community**, including updates, issue resolution, and performance optimization

Certifications

Google Advanced Data Analytics (Coursera)	Apr 2026
AI Anomaly Detection (NVIDIA)	Aug 2025
Rapid Development Ai (IBM)	Jan 2024
Data Visualization (IBM)	Dec 2022

Technical Skills

Programming: Python, SQL

Data Analysis & Libraries: Pandas, NumPy, Data Cleaning, Exploratory Data Analysis (EDA)

Machine Learning & AI: Machine Learning Fundamentals, Scikit-learn, Regression (Linear, Logistic), RAG Pipelines, LLM APIs (OpenAI, Gemini), Pydantic AI, Groq

Data Visualization: Matplotlib, Seaborn, Tableau, Excel

Tools & Platforms: Streamlit, VS Code, Git, GitHub, PyCharm, Jupyter Notebook, Google Colab

Core Concepts: Data Structures & Algorithms, DBMS, Object-Oriented Programming
